

# NEWS FEED

## EQUIPMENT SPOTLIGHT

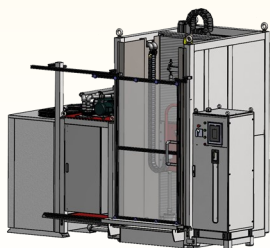

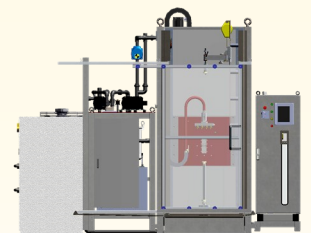

- **CUSTOMER REQUEST:** A large appliance manufacturer wanted to remove a CWP CTL system and re-configure it to be repurposed in another one of their facilities. Formtek Maine removed the equipment, rigged it onto trucks and shipped the entire system back to our facility to perform the required upgrades. To see more detail of this project please click on link below.

## FACTORY TALK

- **EQUIPMENT INVESTMENTS:** Formtek Maine continues to invest in new equipment which will assist us in being productive and control our manufacturing expenses to remain an industry leader in our product offerings. Machine investments in the last few years include: a 5-axis Okuma bridgemill, two Mazak vertical machining centers, a Mazak twin pallet vertical machining center and two Okuma CNC turnmills with live tooling.

Formtek is currently awaiting receipt of its newest investment a new Ultraflex induction heat treater. This new unit will greatly increase the size of rolls that can be heat treated in house which will allow for quicker turn around times on the manufacturing of our straightener rolls.
